PROJECTS

Portfolio Website - React.js - HTML | CSS | Java Script

- Created a responsive portfolio website to show personal and professional achievements. Designed reusable components, added smooth navigation with React Router, and made it mobile-friendly. Deployed on Vercel for easy access. (Project Link)

Fuel Delivery Application - React.js | Java Script | Node.js | MongoDB | API

- Designed and developed a feature-rich fuel delivery web application . Customers can order fuel for doorstep delivery, petrol stations can register to sell fuel, and delivery personnel can register to transport fuel using specially equipped vehicles. Integrated modules for user authentication, order management, and real-time notifications for an optimized user experience. (Project Link)

Coursera Roadmap - React.js | Java Script | Node.js | MongoDB | API

- I built a simple and user-friendly webpage where students can search for courses on Coursera based on their interests. The platform provides a learning roadmap with direct links to relevant courses, helping students easily navigate their educational journey. (Project Link)

ACHIEVEMENTS

- I participated in Flipkart GRiD 6.0, a national-level hackathon with nearly 4.8 lakh participants, clearing two rounds with my fuel delivery application idea before being eliminated in the third round. The experience enhanced my problem-solving and teamwork skills in a highly competitive environment.
